

JT4-STS-3-4.8 x L range

Austenitic A2 stainless steel fastener for facade panels to aluminium substructure $\leq 3\text{mm}$.

Application Features

- Fastening facade panels to aluminium substructure $\leq 3\text{mm}$

Material Specification

- High quality stainless steel grade A2 to ISO 3506, EN 1.4301 to ISO 10088, AISI 304

Performance Details

Ultimate Fastener Tensile Strength

Fastener Diameter	<i>kN</i>
4.8 x L	8.40

Ultimate Fastener Shear Strength

Fastener Diameter	<i>kN</i>
4.8 x L	5.40

Ultimate Pullout Load kN

Fastener Diameter	Nominal Steel Thickness (mm)
	2.00
4.8 x L	1.10

Drive Tool

Self-drilling fastener range

Figures based on tests from aluminium manufactured in accordance with BS EN 755. Contact EJOT Technical Department for further information on specific grades.

Figures shown on this data sheet are based on results obtained from tests carried out in EJOT UK's Applitec laboratory in accordance with equipment conforming to current industry standards, on a random sample of fasteners manufactured to EJOT tolerances. Information supplied should form part of a general guide and should performance data for a specific application be required please do not hesitate to contact us.
