

NEW for 2015

Designed specifically for the smooth, secure installation of SIPS onto timber substrates

New EJOT® SIPS timber JT2-SP2-7 range

Designed and manufactured by EJOT® as part of the modern building envelope, to provide installers with the first high performance fastener range specifically created for the smooth, secure installation of structural insulation panels onto timber substrates.

New EJOT® SIPStimber JT2-SP2-7 range

- SIPS-specific design
- Fast, smooth installation
- Strong, reliable hold

The new **EJOT® SIPStimber** range has been developed through careful research and consultation with leading UK SIPS manufacturers and installers, to provide smooth installation and high strength thread engagement for the strongest fix. The initial range provides a single diameter option in multiple lengths - with all fasteners **manufactured by EJOT® to DIN EN ISO 10666**, using case-hardened carbon steel, organically coated for 1000 hour corrosion resistance.

Applications

- For the installation of Structural Insulated Panels (SIPS)
- Two ranges:
SIP to timber frames, SIP to SIP sticher fastener

Properties

- Secure deep Torx® recess for positive controlled installation
- Large wafer head design to effect positive clamping and maximise pullover performance
- 7.0mm diameter Buttress thread to timber range for high pullout and shear resistance
- Organic 1000 hour salt spray resistant coating for optimum corrosion resistance

Fastener lengths

70mm (Panel sticher)
Order: JT2-SP2-7x70

150mm
Order: JT2-SP2-7x150

175mm
Order: JT2-SP2-7x175

185mm
Order: JT2-SP2-7x185

200mm
Order: JT2-SP2-7x200

225mm
Order: JT2-SP2-7x225

275mm
Order: JT2-SP2-7x275

300mm
Order: JT2-SP2-7x300

360mm
Order: JT2-SP2-7x360

Dia = 7.0mm
Installation = Torx T30

First UK
designed SIPS
fastener range to
meet the demanding
performance
required for the
UK SIPS
market.
