Case hardened steel fastener for fixing roofing or cladding steel sheets side laps and flashings. High stripping torque for thin steel.

## **Application Features**

- For steel sheets and flashings 0.5mm 1.2mm in thickness
- Available head option CF15 aluminium/EPDM vulcanised sealing washers

## **Material Specification**

- High quality case hardened low carbon steel manufactured in accordance with BS EN ISO 10666
- Organic corrosion resistant finish
- High impact coloured nylon head, resistant to temperature from -40°C to 120°C combined with UV stabilisers to ensure maximum colour retention

## Ultimate Fastener Tensile Strength

**Performance Details** 

Fastener Diameter	kN		
8.0 x L	30.00		

### **Ultimate Fastener Shear Strength**

Fastener Diameter	kN
8.0 x L	19.90

#### Ultimate Pullout Load kN

Fastener Diameter	Nominal Steel Thickness (mm)			
	0.50	0.70	0.90	1.20
8.0 x L	1.29	2.04	3.26	5.15

Figures based on tests from construction grade steel designated as S220GD (BS EN 10346), minimum yield strength 220  $N/mm^2.$ 

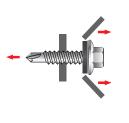

#### Ultimate Pullover Load kN

Washer Face	Nominal Steel Thickness (mm)			
	0.50	0.70	0.90	
CF15 Head	5.10	5.75	6.00	
CF19 Head	5.50	6.20	6.50	

Figures based on use with R38 profile steel sheets with fastener located in valley of profile.
